Dear Sir/Madam

With reference to the review of this application, would like to remind Planning and the Review Body that my Septic Tank and soakaway occupy the space where Mr Mackie plans to site his sewage system it is also along the house. Excavation for the foundations will likely interfere with my system, please see objection letter and plan I sent on 11th April 2018

This Septic Tank has been in continuous use since 1982 and was placed there at the suggestion of Mr Burton the previous land owner who also arranged for its excavation and construction, this is longer than the 20 years required by law. I have document from him agreeing to this arrangement which is lodged with my deeds at my solicitors.

Both of these conditions make any interference with my drainage an illegal act.

Yours sincerely

J L Stridgen
