Dear Sir/Madam

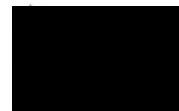

**Future Fisheries Management in Scotland Discussion
Paper: response from Aberdeenshire Council Fisheries Working Group**

I write on behalf of Aberdeenshire Council Fisheries Group to advise that the Group met to consider the above Discussion Paper and concluded that the high level principles and direction of travel proposed for Future Fisheries Management in Scotland align strongly with its own views.

In particular the Group noted the importance of investment in marine science to underpin informed decision-making, a commitment to inclusive and sustainable fisheries management and for fishing opportunities to be allocated for the benefit of active fishers, many of whom are based in NE Scotland and whose voice needs to be heard. Support for new entrants is also welcomed.

The Group looks forward to considering and responding to the more detailed consultation document to follow.

Yours sincerely
