

REPORT TO BUCHAN AREA COMMITTEE – 7th December 2021

ABERDEENSHIRE LICENSING BOARD REVIEW OF STATEMENT OF LICENSING PRINCIPLES 2022-2025

1 Reason for Report / Summary

- 1.1 To make the Committee aware of the Aberdeenshire Licensing Board's review of their Statement of Licensing Principles under the Gambling Act 2005 which requires to be reviewed every three years and for the Committee to provide any comments.

2 Recommendations

The Committee is recommended to:

- 2.1 **Acknowledge that a review of the Aberdeenshire Licensing Board's Statement of Licensing Principles ("Statement") under the Gambling Act 2005 requires to be completed every three years and that a public consultation is taking place between 24th November 2021 and 19th January 2022;**
- 2.2 **Provide any comments on the proposed changes to the Statement as outlined (Appendix 1), to be fed back to the Licensing Board at their meeting on 9th February 2022;**
- 2.3 **Provide any comments on the proposed Area Profile (Appendix 2) which will accompany the Statement, to be fed back to the Licensing Board at their meeting on 9th February 2022.**

3 Purpose and Decision Making Route

- 3.1 Section 349 of the Gambling Act 2005 requires all licensing authorities to prepare and publish a statement of the principles that they propose to apply in exercising their functions under the Act during the three-year period to which the policy applies. The current Statement runs from 2019 – 2022. The Licensing Board are responsible for carrying out this review which includes a public consultation.
- 3.2 The Board's current Statement can be accessed at:

<https://www.aberdeenshire.gov.uk/licensing/licences-and-permits/gambling-gaming-and-lotteries/>
- 3.3 The purpose of this report is to bring the public consultation to the attention of the Area Committee so that any comments can be provided to the Licensing Board as part of their review. Any comments provided by the Committee will be

incorporated into the Board's final consideration and approval of the Statement at their meeting on 9th February 2022.

4 Discussion

- 4.1 The Statement lasts for a maximum of three years but can be reviewed and revised by the licensing authority (the Board) at any time.
- 4.2 An order by the Secretary of State set the third three-year period as running from 14th January 2013 and subsequent periods to run three-yearly thereafter.
- 4.3 The last Statement was approved by the Licensing Board in 2019. Since this time, the Gambling Commission has updated their guidance to licensing authorities and this updated Statutory Guidance was published in April 2021.
- 4.4 The proposed revised Statement is outlined within Appendix 1. The proposed changes to the Statement have been highlighted in bold red lettering for ease.
- 4.5 The proposed changes to the Statement are minor to ensure that the Statement complies with the updated Statutory Guidance published by the Gambling Commission. The vast majority of the existing Statement is proposed to remain the same as its terms are already considered to meet the requirements of the Gambling Act 2005.
- 4.6 As part of the review, the Licensing Board has also introduced a Local Area Profile. This works alongside the Statement and can be updated as and when required by the Board. This document is designed to assist individuals applying for gambling licences who are required to carry out a risk assessment which takes into account local issues and risks. The document makes use of information already available on the Council's website and provides guidance on where to look for information which they may wish to include in their risk assessment.
- 4.7 Comments from the Committee are invited in relation to both the Statement and the proposed Local Area Profile which will both be approved by the Board at their meeting on 9th February 2022.

Consultation

- 4.8 The Statement must be produced following consultation with the bodies set out in Section 349(3) of the Gambling Act 2005. These persons are:-
 - The Chief Constable of the Police force maintained for the police area comprising that area;
 - One or more persons who appear to the authority to represent the interests of persons carrying on gambling businesses in the authority's area, and
 - One or more persons who appear to the authority to represent the interests of persons who are likely to be affected by the exercise of the authority's functions under the Act

- 4.9 The local Area profile must be drawn up with input from public health, mental health, housing, education, community welfare and safety partnership, Police Scotland and organisations such as GAMcare or the equivalent. Accordingly, the Local Area Profile is being sent for consultation alongside the Statement to ensure that this input is sought.

5 Council Priorities, Implications and Risk

- 5.1 The review of the Licensing Board's Statement is a statutory requirement under the Gambling Act 2005.
- 5.2 Consideration of the Statement and Local Area Profile helps to deliver the following Council Priorities:

Pillar	Priority
Our People	Health & Wellbeing
Our Environment	Resilient Communities

- 5.3 The table below shows whether risks and implications apply if the recommendation(s) is (are) agreed.

Subject	Yes	No	N/A
Financial		x	
Staffing		x	
Equalities and Fairer Duty Scotland		x	
Children and Young People's Rights and Wellbeing		x	
Climate Change and Sustainability		x	
Health and Wellbeing		x	
Town Centre First		x	

- 5.4 An integrated impact assessment is not required in this case as the Area Committee are simply providing comments in relation to a consultation being carried out by the Licensing Board and this does not adversely impact on any person with protected characteristics.
- 5.5 An integrated impact assessment will be carried out by the Licensing Board as part of the review of the Statement and a final Assessment will be submitted to

the Licensing Board at its meeting in February 2022 for consideration as part of the approval of the revised Statement.

- 5.6 There are no Risks identified in respect of this matter in terms of the [Corporate](#) and [Directorate](#) Risk Registers as the Sub-Committee is only providing comments to the Licensing Board.

6 Scheme of Governance

- 6.1 The Monitoring Officer within Business Services have been consulted in the preparation of this report and their comments are incorporated within the report and are satisfied that the report complies with the Scheme of Governance and relevant legislation.
- 6.2 The Committee is able to consider this item in terms of Section B1.2 of the List of Committee Powers in Part 2A of the Scheme of Governance as it relates to considering and commenting on a review being carried out by the Aberdeenshire Licensing Board in relation to a policy which impacts its Area.

Background

The consultation period for this document took place between **24th November 2021 and 19th January 2022**.

This Statement of Principles was produced having had regard to the licensing objectives of the Gambling Act 2005, the Gambling Commission's Guidance to Licensing Authorities and the responses made to consultation.

The finalised version of this Statement of Principles was approved at the following meeting of the Board on **9th February 2022(TBC)**.

This Statement of Licensing Principles will not override the right of any person to make an application, make representations about an application, or apply for a review of a licence, as each will be considered on its own merits and according to the statutory requirements of the Gambling Act 2005.

Publication

This Statement of Principles will be published on Aberdeenshire Council's website.

It can be found at www.aberdeenshire.gov.uk.

Paper and electronic copies are also available on request from the undernoted office.

PART A:

1. INTRODUCTION

- 1.1 This Statement of Licensing Principles was approved by the Aberdeenshire Licensing Board on **9th February 2022 (TBC)** and was thereafter published via Aberdeenshire Council's website at www.aberdeenshire.gov.uk.
- 1.2 All references to the Gambling Commission's Guidance for Local Authorities refer to the Guidance published in **April 2021** available at www.gamblingcommission.gov.uk.
- 1.3 We will carry out our role under the Gambling Act 2005 (the Act) in a transparent manner and in the public interest.
- 1.4 We are committed to avoiding duplication with other legislation and regulatory regimes as far as possible. Legal requirements under other legislation such as planning matters, health and safety and fire precautions are not replicated in this Statement.
- 1.5 This Statement has been developed taking into account the statutory guidance from the Gambling Commission and we will give appropriate weight to the views of the persons and organisations consulted.
- 1.6 Section 349 of the Act requires licensing authorities to publish a statement of principles, which will be applied in exercising their functions under the Act. This Statement fulfils that statutory requirement for the Aberdeenshire Licensing Board.
- 1.7 This Statement of Principles will be applied during the three-year period from January **2022-2025**. It will be kept under review and revised, if appropriate, during that three-year period.
- 1.8 This document should be read in conjunction with the Act, regulations made under the Act and guidance issued by the Gambling Commission. This is designed to be a strategic gambling statement, not an operational guide.
- 1.9 In exercising our functions under the Gambling Act 2005, the Aberdeenshire Licensing Board, as a licensing authority, will have regard to the statutory licensing objectives, which are set out at Section 1 of the Act:
- **Preventing gambling from being a source of crime or disorder, being associated with crime or disorder or being used to support crime**
 - **Ensuring that gambling is conducted in a fair and open way**
 - **Protecting children and other vulnerable persons from being harmed or exploited by gambling**

Licensing Decisions

- 1.10 Section 153 of the Act requires us, in making decisions concerning premises licences and temporary use notices, to aim to permit the use of premises for gambling in so far as we think it is:
- **In accordance with any relevant code of practice issued by the Gambling Commission**
 - **In accordance with any relevant guidance issued by the Gambling Commission**
 - **Reasonably consistent with the licensing objectives, and**
 - **In accordance with this Statement of licensing principles**

This means that the Board have no discretion in exercising its functions under Part 8 of the Act, to grant a premises licence where that would mean taking a course which it did not think accordance with the Gambling Commission Guidance, any relevant Code of Practice, this Statement of Policy or consistent with the licensing objectives.

1.11 Nothing in this Statement will:

Override the right of any person to make an application under the Act or to have that application considered on its individual merits, undermine the right of any person to make representations on an application or to seek a review of a licence where there is legal power to do so.

1.12 Under this legislation unmet demand is **not** a criterion for a licensing authority in considering an application and in accordance with Gambling Commission Guidance for Licensing Authorities, “moral objections to gambling are not a valid reason to reject applications for premises licences”. Therefore we will consider any application in accordance with the Act, on its own merits, without regard to demand or moral objection to gambling in general.

Scheme of Delegation

1.13 S155 of the Act allows Licensing Boards to delegate certain functions to a Committee, a Sub-Committee or an officer of the authority.

A Scheme of Delegation has been prepared in accordance with the Act and Gambling Commission Guidance to ensure effective management of the authority’s functions under the Act.

2. A PROFILE OF ABERDEENSHIRE

2.1 **In order to assist applicants, where there is an issue in a local area which impacts on how the applicant should complete their risk assessment (see para 10.41 and Gambling Commission guidance), the Licensing Board has introduced and published a local area profile. This is published as a separate document to this Statement of Principles and does not form part of it. The profile may be reviewed at any time and such a review would not constitute a review of this policy. Applicants are encouraged to use this profile when completing their risk assessments.**

The area profile was introduced and approved by the Licensing Board on 9th February 2022(TBC) and will be published on the Council website alongside the approved Statement of Principles.

The Aberdeenshire Licensing Board

GENERAL

2.3 The role of the Board is to determine policy as well as the administration and consideration and determination of licensing applications in line with the provisions contained within the 2005 Act for Aberdeenshire.

2.4 Whilst the Act is silent in terms of how members of the Board should exercise their functions separately from their role as councillors, the Board requires to be independent

and impartial tribunals in terms of Article 6 of the European Convention for the Protection of Human Rights and Fundamental Freedoms (“ECHR”), which was incorporated into UK domestic law by the Human Rights Act 1998. Board Members also take account of the terms of the Councillors’ Code of Conduct published by the Standards Commission for Scotland which sets out the need to ensure that there is a proper and fair hearing for all regulatory decision-making, including liquor licensing, and that there is no suggestion of pre-judging or bias in the consideration of any applications before the Board. Accordingly, Board Members may declare an interest and not participate in the consideration of any licensing matter in respect of which they have had any prior involvement either personally or in their capacity as a councillor if they feel such prior involvement would compromise their impartiality.

2.5 The Board will carry out all functions under the Act with a view to promoting the five Licensing Objectives

2.6 The Board has 10 members with a quorum of 4 and is supported by a Clerk, Depute Clerks as well as Administrative Support Staff.

2.7 The Clerk is Karen Wiles, Head of Legal and People, Business Services, Aberdeenshire Council, Woodhill House, Westburn Road, Aberdeen, AB16 5GB.

2.8 The Depute Clerks are as follows:

Fiona M. Stewart

3. CONSULTATION ON THE STATEMENT OF LICENSING PRINCIPLES

3.1 The Licensing Board is required by the Act to publish a Statement of Principles, which they propose to apply when exercising their licensing functions. This Statement must be published at least every three years. This Statement must also be reviewed from time to time and any amended parts re-consulted upon. This Statement must then be re-published.

3.2 The Board consulted widely on this revised Statement of Principles before finalising and publishing it. A list of the persons sent this document is attached at Appendix 1. This revised document is available on the Aberdeenshire Council licensing website at: www.aberdeenshire.gov.uk.

3.3 The Act requires that the following parties are consulted by each licensing authority:

- **The Chief Constable, Police Scotland**
- **One or more persons who appear to the authority to represent the interests of persons carrying on gambling businesses in the authority's area.**
- **One or more persons who appear to the authority to represent the interests of persons who are likely to be affected by the exercise of the authority's function under the Act**

3.4 **The current Statement of Principles will be reviewed again in 2025.**

4. DECLARATION

4.1 In producing the final revised licensing Statement, the licensing authority declares that it has had regard to the licensing objectives of the Act, the guidance issued by the Gambling Commission and responses from those consulted on the Statement.

5. RESPONSIBLE AUTHORITIES

5.1 We are required under Section 157(h) of the Act to designate, in writing, a body that is competent to advise the authority about the protection of children from harm.

5.2 We designate the Aberdeenshire Child and Family Protection Committee, an inter-agency body representing the statutory, private and voluntary sectors.

5.3 We do so because it operates throughout the whole of the area covered by the Licensing Board and because it has the specialist knowledge and expertise to fulfil this role.

5.4 The Responsible Authorities under the Act are

The Aberdeenshire Licensing Board
The Gambling Commission
The Chief Constable, Police Scotland
The Chief Officer, Scottish Fire and Rescue Service
The Planning and Building Standards Service, Aberdeenshire Council
The Protective Services and Waste Management Service, Aberdeenshire Council
The Aberdeenshire Child and Family Protection Committee
HM Revenue & Customs
The Integration Joint Board

¹ <http://committees.aberdeenshire.gov.uk/committees.aspx?commid=487>

The Education and Children's Services Committee, Aberdeenshire Council
The Scottish Environment Protection Agency (vessels)
The British Waterways Board (vessels)
The Secretary of State for Transport (vessels)

Subject to any other party being prescribed by Regulation by the Secretary of State. The contact addresses for these authorities are shown at: Appendix 1.

6. INTERESTED PARTIES

6.1 Interested parties can make representations about licence applications, or apply for a review of an existing licence. These parties are defined in the Act as follows:

“A person is an interested party in relation to an application for, or in respect of a premises licence if, in the opinion of the licensing authority which issues the licence or to which the application is made, the person:

- a) Lives sufficiently close to the premises to be likely to be affected by the authorised activities,
- b) Has business interests that might be affected by the authorised activities, or
- c) Represents persons who satisfy paragraph (a) or (b)”

6.2 We are required by regulations to state the principles we will apply in exercising our powers under the Act to determine whether a person is an interested party. We will consider a number of factors in making such a determination including:

- The size of the premises
- The nature of the premises
- The distance of the premises from the location of the person making the representation
- The potential impact of the premises such as the number of customers, routes likely to be taken by those visiting the premises
- The circumstances of the person who live close to the premises. This is not their personal characteristics but their interests which may be relevant to the distance from the premises.

6.3 We will decide each case on its merits. We will not apply a rigid rule to our decision-making but will apply local knowledge and integrity to each decision.

7. DATA PROTECTION AND EXCHANGE OF INFORMATION

7.1 **In fulfilling their functions and obligations under the Act, the Board will exchange relevant information with other regulatory bodies and will establish protocols as necessary. In exchanging such information, the Board will conform to the requirements of the Act, Data Protection and Freedom of Information legislation as well as the Gambling Commission's Guidance to Licensing Authorities.**

7.2 Contact details of those persons making representations and of their representations will be made available to applicants for a licence. Should a hearing take place they will form part of a public document. Any person who lodges representations or applies for a review of a premises licence will be informed that these details will be disclosed.

7.3 **The Board shall maintain a register of all premises licences and permits issued by them and shall ensure that this register is available for public inspection at all reasonable times. The Board has an online register which can be viewed at any time:**

Online Licensing Register

7.4 Section 29 of the Act entitles the Gambling Commission to seek information from licensing authorities and places an obligation on authorities to comply with its information requests, providing the information is:

- Part of a register maintained by the licensing authority
- In the licensing authority's possession in connection with a provision of the Act.

7.5 Licensing authorities are required to maintain data on premises licences and are required to notify the Commission of the outcome of each application for a premises licence, whether it is granted or refused, or where such a licence has lapsed, been surrendered and the cancellation of certain permits and registrations.

7.6 The Licensing Board is required to submit returns to the Commission on an annual basis providing information on licensed gambling activity and details of compliance and regulatory work undertaken.

7.7 The Boards also requires to maintain the following information:

- **Small society lotteries:** the Board is required to record details of the lottery on a register and to notify both the applicant and the Commission of this registration
- **Club Gaming permits:** when the Board either grants or rejects an application for a club gaming permit they are required to inform both the applicant and the Commission.

7.8 The Licensing Board's Publication Schemes and Guides to Information can be accessed [here](#)².

7.9 Human Rights Act 1998

The Secretary of State has certified that the Gambling Act 2005 is compatible with the European Convention on Human Rights., In considering applications and taking enforcement action under this Act the Boards will bear in mind that they are subject to the Human Rights Act 1998 and in particular:

Article 1, Protocol 1 – peaceful enjoyment of possessions. A licence is considered a possession in law and people should not be deprived of their possessions except in the public interest.

Article 6 – right to a fair hearing
--

Article 8 – respect for private and family life. In particular, removal or restriction of a licence may affect a person's private life

Article 10 – right to freedom of expression.

8. ENFORCEMENT

8.1 In exercising our functions under the Act with regard to the inspection of premises we will be guided by the Gambling Commission's Guidance and our approach will be:

Proportionate
Accountable
Consistent
Transparent

² <https://www.aberdeenshire.gov.uk/licensing/alcohol/policies/licensing-board-publication-schemes/>

Targeted

8.2 We will adopt a local risk-based approach whereby the main determinant shall be the risk posed to the three licensing objectives by premises. Premises will be subject to a scheme of routine inspection, the frequency of which will be determined by the risks posed; those premises considered to pose the greatest risk will be subject to more frequent inspections than those presenting a lower risk.

8.3 When determining risk, consideration will be given to:-

the nature of the gambling activities carried out in the premises;
the location of the premises in relation to schools, vulnerable adult centres or residential areas where there may be high concentrations of families with children;
the number of complaints received (if any) in relation to particular premises;
The procedures put into place by management of the premises to ensure compliance with the licensing objectives.
In determining whether to undertake an inspection of premises, the Boards will determine each case on its own merits

8.4 The main enforcement and compliance role for the licensing authority in terms of the Act will be to ensure compliance with premises licences and associated conditions and other issues relating to the premises themselves, and other permissions, which it authorises. It is noted that the enforcement body for personal and operating licences is the Gambling Commission. That said, the Board, in accordance with the Commission's Guidance, hold the view that the Commission, the Board itself and the Police are all parties to the enforcement regime created under the Act.

8.5 According to the principle of transparency, if the licensing authority adopts any enforcement and compliance protocols, copies will be available upon request.

8.6 The licensing authority recognises that certain bookmakers have a number of premises within its area. In order to ensure that any compliance issues are recognised and resolved at the earliest stage, operators are requested to provide the authority with a single named point of contact and contact details, who should be a senior individual, and whom the authority will contact first should any compliance queries or issues arise.

8.7 The Board will investigate complaints against licensed premises in relation to matters relating to the licensing objectives for which it has responsibility. In the first instance, complainers are encouraged to raise the complaint directly with the licence holder or business concerned to seek a resolution.

Where an interested party has made valid representations about licensed premises, or a valid application for a licence to be reviewed, the Board may initially recommend a conciliation meeting to address and clarify the issues of concern. This process will not override the right of any interested party to ask that the Board to consider their valid objections or for any licence holder to decline to participate in a conciliation meeting.

Due consideration will be given to all relevant representations unless they are considered to be frivolous, vexatious or repetitious.

9. ENFORCEMENT

9.1 The licensing authority will make decisions upon applications or notifications made for:

Premises licences
Temporary use notices
Occasional use notices
Permits as required under the Act, and
Registrations as required under the Act

9.2 This Statement of Principles relates to all those licensable premises, notices, permits and registrations identified as falling within the provisions of the Act, namely:

Casinos
Bingo premises
Betting premises
Tracks
Adult gaming centres
Licensed family entertainment centres
Unlicensed family entertainment centres
Club gaming permits
Club machine permits
Prize gaming and prize gaming permits
Alcohol licensed premises – gaming machine permits
Occasional use notices
Temporary use notices
Registration of small society lotteries

9.3 We will not be involved in licensing remote gambling. Regulation of remote gambling will fall to the Gambling Commission through operator's licences.

PART B:

10. PREMISES LICENCES

General Principles

- 10.1 Premises licences will be subject to the restrictions set out in the Act and regulations, as well as to specific mandatory and default conditions which will be detailed in regulations issued under the Act.
- 10.2 We may exclude default conditions and also attach other conditions, where we believe it is appropriate.
- 10.3 In making decisions about premises licences we will aim to permit the use of premises for gambling in so far as we think it is:

In accordance with any relevant code of practice issued by the Gambling Commission.

In accordance with any relevant guidance issued by the Gambling Commission
--

Reasonably consistent with the licensing objectives, and
--

In accordance with this statement of licensing principles

- 10.4 Premises are defined in the Act as “any place”. Different premises licences cannot apply in respect of a single premises at different times. We will assess each case on its individual merits to decide as a matter of fact, whether different parts of a building can properly be regarded as being separate premises. We note the Gambling Commission’s advice in this area.
- 10.5 An applicant cannot obtain a full premises licence until the premises in which it is proposed to offer the gambling are constructed. The Gambling Commission Guidance advises that reference to “the premises” is to the premises in which gambling may now take place, so the premises must be ready to be used for gambling. Each case will be a question of fact and degree.
- 10.6 In considering an application for a premises licence no regard will be had to the expected demand for the facilities proposed to be provided in the premises for which a premises licence is sought.
- 10.7 Section 152 of the Act prevents more than one premises licence applying to any place. However, the Board note that the Gambling Commission’s Guidance indicates that the proper application of Section 152 means that different premises licences cannot apply in respect of single premises at different times. There is therefore no temporal element to a premises licence. Premises therefore cannot, for example, be licensed as a bingo club on weekdays and a betting shop at weekends.
- 10.8 The Board also note that the Commission’s Guidance indicates that there is no reason in principle why a single building cannot be subject to more than one premises licence, provided that those licences are for different parts of the building, and the different parts of the building can reasonably be regarded as being different premises. The Board shall also pay particular attention with regards to the sub-division of a single building or plot to ensure that mandatory conditions relating to access between these premises are adhered to.
- 10.9 The Board take note of the Commission’s Guidance that, in most cases, the expectation will be that a single building or plot will be the subject of an application for a licence. This does not, however, mean that the single building or plot cannot be the subject of separate premises licences for example for the basement and ground floor. However, the Boards agree with the Commission that areas of a building that are artificially or temporarily

separated (for example: by ropes or moveable partitions) cannot properly be regarded as different premises.

10.10 The Board also agreed with the Commission that whilst different configurations may be appropriate under different circumstances in determining whether a single building may be regarded as different premises, the crux of the matter shall be whether the proposed premises may be regarded as being genuinely separate premises that merit having their own licence and are not an artificially created part of what is readily identifiable as a single premises.

10.11 Consideration as to whether different parts of a building may be regarded as being different premises shall be one of fact and degree and the Board shall determine each case on its own merits.

10.12 However, in determining whether two or more proposed premises may be regarded as truly separate, the Board may consider factors from the following, non-exhaustive, list:

The location of the premises;
Whether there is separate registration for business rates in place for the premises;
Whether each of the premises may be accessed from the street or a public passageway.
Whether the premises may only be accessed from another gambling premises; and
Whether the premises' neighbouring premises are owned by the same person or

10.13 In considering applications for multiple premises licences for a building and those relating to a separate part of a building used for other non-gambling purposes, the Board shall consider the factors from the following, non-exhaustive list:

The third licensing objective which seeks to protect children from being harmed by gambling. This means not only preventing children from taking part in gambling, but also preventing them from being in close proximity to gambling. Premises should therefore be configured so that children are not invited to participate in, have accidental access to, or closely observe gambling where they are prohibited from participating;
Entrances to and exits from parts of a building covered by one or more premises licences should be separate and identifiable so that the separation of different premises is not compromised and people do not 'drift' into a gambling area. In this context it should normally be possible to access the premises without going through another licensed premises or premises with a permit;
Customers ought to be able to participate in the activity named on the premises licence.

Vessels

10.14 The Act permits premises licences to be granted for passenger vessels. Section 353(1) of the Act defines a vessel as:

Anything (other than a seaplane or amphibious vehicle) designed or adapted for use on water;
A hovercraft,
Anything, or part of any place, situated on or in water (to be given a normal and sensible interpretation).

- 10.15 Structures which are an extension of the land, such as a pier or a bridge, are not to be considered a vessel and remain as premises under the Act.
- 10.16 Pleasure boats may apply for premises licences. The Act applies in relation to vessels that are not permanently moored or berthed, as if they were premises situated in a place where usually moored or berthed.
- 10.17 The Board shall be concerned with:
- the promotion of the licensing objectives on board the vessel
- 10.18 The Board shall not take into account:
- matters relating to safe navigation or operation of the vessel,
 - the general safety of passengers or emergency provision,
- all with are subject to regulations which must be met before the vessel is issued with its Passenger Certificate and Safety Management Certificate.
- 10.19 A licence is not required for gambling taking place aboard a vessel engaged on an international journey.
- 10.20 The Board have jurisdiction over gambling conducted on vessels on all inland waterways, at permanent moorings, and on all aircraft on the ground or in domestic airspace. If an ocean-going vessel is involved, the Board, will establish where the vessel has been or is intending to go.

Vehicles

- 10.21 Vehicles (trains, road vehicles, aircraft, sea planes and amphibious vehicles, other than a hovercraft) are **NOT** permitted to be the subject of a premises licence.

All Premises

- 10.22 In accordance with the Gambling Commission's Guidance we will pay particular attention to the protection of children and vulnerable persons from harm or exploitation by gambling, as well as to issues of crime and disorder.
- 10.23 The licensing authority has not adopted any specific policy in relation to areas where gambling premises should not be located. Should any such policy be adopted this Statement will be updated and the policy will be publicly available.
- 10.24 Any future policy would not preclude an application for a premises licence being made: the onus will be upon the applicant to show how any potential concerns could be overcome; however, each application would be considered on its own merits, keeping in mind the overriding principle contained in section 153 of the Gambling Act 2005 that the Boards should "aim to permit the use of premises for gambling".
- 10.25 The licensing authority will seek to avoid any duplication with other statutory/regulatory systems wherever possible, including the statutory planning regime.
- 10.26 We will not consider whether a licence application is likely to be awarded planning consent or building warrant approval in considering an application for a premises licence. Aberdeenshire Council's Planning Service is a responsible authority under the Act and has the opportunity to make representations should it consider appropriate, otherwise the two regimes will be properly separated.
- 10.27 We will carefully consider any concerns raised about licensing conditions, which cannot be met by licence holders due to planning restrictions, should such a situation arise.

OBJECTIVE 1**PREVENTING GAMBLING FROM BEING A SOURCE OF CRIME OR DISORDER, BEING ASSOCIATED WITH CRIME OR DISORDER OR BEING USED TO SUPPORT CRIME**

- 10.28 The Gambling Commission will be taking a leading role in preventing gambling from being a source of crime. Its guidance envisages that attention is paid to the proposed location of gambling premises in terms of this licensing objective.
- 10.29 Where an area has known high levels of organised crime, we will consider carefully whether it is suitable to locate there and whether conditions should be imposed such as the provision of door stewards.
- 10.30 We recognise the Gambling Commission's distinction between disorder and nuisance, disorder meaning activity, which is more serious and disruptive than mere nuisance, which is not a Gambling Act licensing objective. We will consider factors such as whether police assistance was required and how threatening the behaviour was to those who could see it, to assess a disturbance.
- 10.31 In considering licence applications, the licensing authority will particularly take into account the following:

The design and layout of the premises;
The training given to staff in crime prevention measures appropriate to those premises;
Physical security features installed in the premises, which may include matters such as the position of cash registers or the standard of CCTV that is installed;
Where premises are subject to age restrictions, the procedures in place to conduct age verification checks; and
The likelihood of any violence, public order or policing problems if the licence is granted.

OBJECTIVE 2**ENSURING THAT GAMBLING IS CONDUCTED IN A FAIR AND OPEN WAY**

- 10.32 The Gambling Commission has stated that it would generally not expect licensing authorities to be concerned with ensuring that gambling is conducted in a fair and open way as this will relate either to the management of the business, therefore subject to an operating licence, or to an individual and therefore subject to a personal licence. Both of these are the responsibility of the Gambling Commission. That said, if the Board suspect that gambling is not being conducted in a fair and open way, the Board note in particular the Commission's comments in its Guidance that the Board ought to bring this to the attention of the Gambling Commission. The Board shall endeavour to do so should said suspicion arise.

OBJECTIVE 3**PROTECTING CHILDREN AND OTHER VULNERABLE PERSONS FROM BEING HARMED OR EXPLOITED BY GAMBLING**

- 10.33 The Act itself provides definitions of "children" and "young persons" as follows:
- A "child" means an individual who is less than 16 years old.

- A “young person” means an individual who is not a child but who is less than 18 years old.

10.34 The Gambling Commission Guidance for Local Authorities states that this objective relates to preventing children from taking part in gambling as well as the restriction of advertising so that gambling products are not aimed at children or are particularly attractive to them.

10.35 We will consider then whether specific measures are required at individual premises to promote the licensing objective. Appropriate measures may include supervision of access points or machines, or segregation of areas. We will consult with the Child Protection Committee on any application that indicates there may be concerns over access for children or vulnerable persons.

10.36 Significant weight will be given to all matters relating to the protection of children and young persons. An applicant for a premises licence must comply explicitly with the Act and any recognised Codes of Practice (including those in respect of advertising) regarding the permitted access or exclusion and participation of children and young persons. Subject to the exemptions within the Act, applicants for a premises licence may also be required to provide evidence that employee age checks are carried out to ensure no child or young person is being employed when facilities for gambling are being provided. Where the Board determine that there may be a risk of harm to children in relation to particular premises, it may (where permitted) exclude or limit the access of children to the premises at specific times or when certain activities are taking place. Where the Act permits access to children and young persons the Board will, in appropriate circumstances, attach conditions to the premises licence specifically to ensure the protection of children and young persons. Issues of concern may be:

The location and/or configuration of the premises;
Supervision of entrances;
Clear signage externally regarding age-restricted premises (over 18 years of age);
Age verification checks;
Clear segregation of gambling and non-gambling areas;
Clear signage regarding age-restricted areas;
Supervision of access to gambling areas;
Supervision of gambling machines;
Age verification checks of employees, and persons employed through employment agencies.

The Board may, in appropriate circumstances, attach conditions to a premises licence in order to ensure adequate supervision by adult staff. It may also set requirements regarding the appropriate number of adult staff to be present at the premises based on the numbers of children present.

10.37 The term “vulnerable persons” is not defined but the Gambling Commission states that “it will for regulatory purposes assume that this group includes people:

who gamble more than they want to;
people who gamble beyond their means; and
people who may not be able to make informed or balanced decisions about gambling due to a mental impairment, alcohol or drugs

10.38 Applicants for premises licences, permits and authorisations will be expected to have awareness that for some people gambling activities can present a potential harm. An applicant will be required to ensure that all members of their staff receive adequate training and clear instruction regarding this issue, and will also be required to comply with any Code of Practice and Guidance issued by the Gambling Commission. The Board may also consider it appropriate to attach a condition to all premises licences

requiring the holder to display in a prominent position, posters/leaflets providing the contact details for various Support Groups and Organisations specifically set up to assist people who may wish to seek help or advice regarding gambling related issues.

- 10.39 Applicants may consider the following example measures for protecting and supporting vulnerable persons:

Leaflets offering assistance to problem gamblers being made available on gambling premises in locations that are both prominent and discreet. A discreet location might be, for example, Toilets;
Training for staff members which focuses on building an employee's ability to maintain a sense of awareness of how much (e.g. how long) customers are gambling, as part of measures to detect persons who may be vulnerable;
Trained personnel for the purpose of identifying and providing support to vulnerable persons;
Self-exclusion schemes;
Stickers or notices on gaming machines to identify the stakes/prizes;
Operators should demonstrate their understanding of best practice issued by organisations that represent the interests of vulnerable people;
Fixed Odds Betting Terminals should clearly display the odds;
Positioning of ATM machines;
Stickers/posters with GamCare Helpline and website in prominent locations i.e. on ATM machines;
Careful selection and review of the placing and content of advertisements and other promotional material.

It should be noted that some of the above measures form part of the mandatory conditions placed on premises licences but the Board may consider any of the above or similar measures as licence conditions should these not be adequately addressed by any mandatory conditions, default conditions or proposals from the applicant.

- 10.40 The licensing authority will consider promotion of this licensing objective on a common sense, case-by-case basis.

Conditions on premises licences

- 10.41 Any conditions we attach to licences will be proportionate and will be:

Relevant to the need to make the premises building suitable as a gambling facility
Directly related to the premises and the type of licence applied for
Fairly and reasonably related to the scale and type of premises and
Reasonable in all other aspects

Decisions on individual conditions will be made on a case-by-case basis. Where certain measures are not already addressed by the mandatory/default conditions or by the applicant, the Board may consider licence conditions. Additional conditions will only be imposed where there is evidence of a risk to the licensing objectives that requires that the mandatory and default conditions be supplemented. These may cover such issues as:

Proof of age schemes;
CCTV;
Supervision of entrances;
Supervision of machine areas;
Physical separation of areas;
Location of entrance points;
Notices/signs;
Specific opening houses;
A requirement that children must be accompanied by an adult;

Enhanced CRB checks of the applicant and/or staff;
Support to persons with gambling addictions;
Policies to address seasonal periods where children may more frequently attempt to gain access to premises and gamble, such as half-term and summer holidays;
Policies to address the problems associated with truant children who may attempt to gain access to premises and gamble;
Door supervisors;
appropriate signage for adult only areas
Any one or a combination of measures

This list is not mandatory or exhaustive and is merely indicative of examples.

The Board will expect licence applicants to offer their own suggestions as to ways in which the licensing objectives can be met effectively. As of 6th April 2016, all applicants are required to undertake a local area risk assessment. This will identify local risks to the licensing objectives and mitigation measures to be implemented to ensure that operation is reasonably consistent with the licensing objectives. The assessment must take into account relevant matters identified in this statement of licensing policy. The risk assessment should be shared with us when applying for a premises licence or applying for a variation to existing licensed premises, or otherwise at our request.

The risk assessment must be updated:

- **When applying for a variation of a premises licence**
- **To take account of significant changes in local circumstances, including those identified in this policy statement**
- **When there are significant changes at a licensee's premises that may affect their mitigation of local risks**

The Board has prepared a local area profile which may be of assistance when preparing a risk assessment. This is published online separately and is not considered part of the Statement of Principles. A link to the Area Profile is provided: [TBC]

10.42 We may consider specific measures for building, which are subject to multiple premises licences. Such measures may include:

the supervision of entrances,
segregation of gambling and non-gambling areas frequented by children,
the supervision of gaming machines in non-adult gambling specific premises, and
the display of notices regarding age restrictions.

10.43 There are conditions which cannot be attached to premises licences and those are:

Any condition on the premises licence which makes it impossible for the applicant to comply with an operating licence condition;
Conditions relating to gaming machine categories, numbers, or method of operation;
Conditions which provide that membership of a club or body be required (the Gambling Act 2005 specifically removes the membership requirement for casino and bingo clubs and this provision prevents it being reinstated);
Conditions in relation to stakes, fees, winnings or prizes.

Door Supervisors

10.44 In accordance with the Gambling Commission Guidance, the licensing authority may consider whether there is a need for door supervisors in terms of the licensing objectives relating to children and vulnerable persons and the prevention of crime. The Board may also specify the level of door supervision required.

- 10.45 “Door supervision shall have the meaning ascribed to it in Section 178 of the Act. The Board do note the terms of the Gambling Commission’s Guidance to the effect that door supervisors employed by the Operator who are employed at casino or bingo premises do not require to be licensed by the Security Industry Authority.
- 10.46 The Board note that, in terms of Section 178 of the Act, if a door supervisor is required by the Private Security Industry Act 2001 to hold a licence under that Act authorising him/her to fulfil their functions under that Act, then that requirement will be treated as if it were a condition of the premises licence by virtue of Section 178.
- 10.47 The Board may formulate a policy relating to registration with the licensing authority of all door supervisors working at casino or bingo premises. This would be in recognition of the nature of the work, which might include searching individuals, dealing with potentially aggressive and young and vulnerable persons. If so, the policy will be made available publicly.
- 10.48 The authority will impose the requirement for CCTV, door supervisors and/or the separation of different operational areas within the premises for the protection of the public in circumstances where there is clear evidence, from the history of trading at specific premises, that such premises cannot be adequately supervised from the counter and that any one or more of such requirements are both necessary and proportionate.

11 ADULT GAMING CENTRES

- 11.1 An Adult Gaming Centre premises licence authorises the licence holder to provide a number of category B gaming machines not exceeding 20% of the total number of gaming machines which are available for use on the premises; any number of category C machines and any number of category D machines. Premises subject to a licence granted before 13th July 2011 are entitled to make available four category B3/B4 gaming machines, or 20% of the total number of gaming machines, whichever is the greater. Adult Gaming Centre premises licences granted on or after 13th July 2011 are entitled to 20% of the total number of gaming machines only. Category B machines should be restricted to sub-category B3 and B4 machines, but not B3A machines. See **Appendix 3** for further information on the categorisation of machines.
- 11.2 Where two separate Adult Gaming Centres have been created adjacent to each other by splitting pre-existing premises, it is not permissible to locate eight category B3 machines in one of the resulting premises with none in the other one as the gaming machine entitlement for that premises would be exceeded.
- 11.3 No persons under the age of 18 years shall be permitted to enter an Adult Gaming Centre. The Board shall have particular regard to the location of, and entry to, an Adult Gaming Centre to ensure that opportunities for children to have access are minimised. In this regard the Board will expect applicants to offer their own measures to promote, in particular, the third licensing objective.
- 11.4 In terms of the Gambling Act 2005 (Mandatory and Default Conditions) (Scotland) Regulations 2007, mandatory conditions shall apply. There are currently no default conditions specific to Adult Gaming Centres. Appropriate licence conditions may cover issues such as:

proof of age schemes,
CCTV,
door supervisors,
supervision of entrances/machine areas,
physical security measures,
physical separation of areas,

location of entry notices/signage, including the display of notices and signage externally stating access to the premises is restricted to persons aged 18 years of age and over,
the display of notices both internally and externally stating use of gaming machines is restricted to persons 18 years of age and over,
staff undergoing appropriate training,
specific opening hours and notices displaying same,
self-barring schemes,
provision of information leaflets/helpline numbers for support organisations such as GamCare.

This list is merely indicative and not intended to exclude other conditions in appropriate cases.

12 FAMILY ENTERTAINMENT CENTRES

12.1 A Licensed Family Entertainment Centre is a premises for which a Licence is granted to provide any number of category C and D gaming machines. Whilst persons under 18 years of age are permitted entry to the premises, no persons under 18 years of age may be permitted access to those areas of the premises where category C gaming machines are situated. The Board shall require that category C machines be situated in a separate area to ensure the segregation and supervision of machines that may only be played by those over 18 years of age. See **Appendix 3** for further information on gaming machine categories.

12.2 In terms of the Gambling Act 2005 (Mandatory and Default Conditions) (Scotland) Regulations 2007, mandatory conditions shall apply. There are currently no default conditions specific to Licensed Family Entertainment Centres. We will expect applicants as part of their application to offer their own measures to promote the licensing objectives. Appropriate licence conditions may cover such issues as:

proof of age schemes,
CCTV,
supervision of entrances/machine areas,
Physical security measures on the premises,
physical separation of areas with emphasis on measures in place to ensure the physical separate of areas for category C gaming machines;
self-barring schemes,
location of entry notices/signage,
the display of clear notices and signage both internally and externally regarding age-restricted areas,
specific opening hours and the display of a notice of same,
provision of information leaflets/helpline numbers for support organisation such as GamCare,
measures/training for staff on how to deal with suspected school children on the premises.

This list is merely indicative and not intended to exclude other conditions in appropriate cases.

12.3 In accordance with the Gambling Commission's Guidance, we will ensure that we are sufficiently aware of any conditions that apply to operating licences, for instance those covering the way in which the area containing the Category C or higher machines, should be delineated.

13 CASINOS

13.1 The licensing authority has not passed a "no casino" resolution under Section 166 of the Act but is aware that it has power to do so.

- 13.2 Section 165 of the Act gives us the power to decide not to issue further casino licences in our area.
- 13.3 The licensing authority reserves the right to review this situation.
- 13.4 The Board notes Part 17 of the Commission's Guidance in relation to Casinos.
- 13.5 In terms of the Gambling Act 2005 (Mandatory and Default Conditions) (Scotland) Regulations 2007, mandatory and default conditions, unless excluded by the Board, shall apply. The Boards may also attach conditions to a casino premises licence in terms of Section 169 of the Act.

14 BINGO PREMISES

- 14.1 **The Board note that there is no statutory definition of "bingo" in terms of the Act other than it means 'any version of the game irrespective of by what means it is described.' In terms of the Gambling Commission guidance, it notes that two types of bingo are commonly understood:**
- ◆ **Cash bingo, where the stakes paid make up the cash prizes that are won**
 - ◆ **Prize bingo, where various forms of prizes are won, not directly related to the stakes paid.**
- 14.2 A bingo premises licence holder may generally be able to offer any type of bingo game, whether it be cash bingo or prize bingo.
- 14.3 The Board note that they need to be satisfied that bingo can be played in any bingo premises for which they issue a premises licence. This shall be a relevant consideration whether the operator of an existing bingo premises applies to vary their licence to exclude an area of the existing premises from its ambit and then applies for a new premises licence, or multiple licences, for that or those excluded areas.
- 14.4 The holder of a bingo premises licence may make available for use a number of category B gaming machines not exceeding 20% of the total number of gaming machines on the premise. Premises that were licensed before 13th July 2011 are entitled to make available eight category B gaming machines, or 20% of the total number of gaming machines, whichever is the greater. There are no restrictions on the number of category C or D machines that can be made available. Category B machines at bingo premises are restricted to sub-category B3 and B4 machines, but not B3A machines. See **Appendix 3** for further information on the categorisation of machines.
- 14.5 **Gambling machines should be made available for use in a manner consistent with Gambling Commission Guidance (Part 16). Gaming machines will only be counted as part of the number of machines on the premises if they can be played simultaneously by different players without physical hindrance. This includes tablets.**
- 14.6 The Board also note the Commission's Guidance at Paragraph 18.9 with regards to the unusual circumstance whereby an existing bingo premises covered by one premises licence applies to vary the licence to split the premises into one or more separate licensed premises. The Board note the Commission's position that it is not permissible to locate the total number of category B3 gaming machines in one resulting premises with none in the other one, as the maximum entitlement of eight gaming machines for that premises would be exceeded. A maximum of eight gaming machines in category B3 or B4 shall therefore be permitted in each resulting premise.
- 14.7 Children and young persons are permitted into bingo premises, however, they are not permitted to participate in the bingo and, if category B or C machines are made available

for use, these must be separated from areas where children and young people are permitted.

14.8 In accordance with the licensing objective of protecting children and other vulnerable persons from being harmed or exploited by gambling, the Board may require an applicant to prove that sufficient measures are in place to prevent children, young persons and vulnerable persons from having access to Category B and C machines.

14.9 In terms of the Gambling Act 2005 (Mandatory and Default Conditions) (Scotland) Regulations 2007, mandatory and default conditions, unless excluded by the Board, shall apply. The Board may also attach conditions to a bingo premises licence in terms of Section 169 of the Act. Any example of such conditions may be as follows:

Proof of age scheme
CCTV
Physical security measures on the premises,
Supervision of entrances,
Measures to ensure the physical separation of gambling areas where category C or above gaming machines are made available for use,
Supervision of age-restricted areas of the premises,
Self-barring schemes,
The display of clear notices and signage both externally and internally regarding age restrictions and restricted areas,
The display of a notice of the opening hours,
Policy and procedures regarding the employment of young persons,
provision of information leaflets/helpline numbers for support organisation such as GamCare

This list is merely indicative and not intended to exclude other conditions in appropriate cases.

15 BETTING PREMISES

15.1 The Act contains a single class of licence for betting premises. However, within this single class of licence there are different types of premises which require licensing. This part of the Policy refers to betting that takes place in places other than at a track.

15.2 No children and young persons shall be allowed entry to premises with a betting premises licence at any time. Special rules apply to tracks.

15.3 In terms of the Gambling Act 2005 (Mandatory and Default Conditions) (Scotland) Regulations 2007, mandatory and default conditions, unless excluded by the Board, shall apply. The Board may also attach conditions to a betting premises licence in terms of Section 169 of the Act. Examples of such conditions may be as follows:

Proof of age scheme
CCTV
Physical security measures on the premises,
Supervision of entrances,
Measures to ensure the physical separation of gambling areas where category C or above gaming machines are made available for use,
Supervision of age-restricted areas of the premises,
Self-barring schemes,
The display of clear notices and signage both externally and internally regarding age restrictions and restricted areas,
The display of a notice of the opening hours,
Policy and procedures regarding the employment of young persons,

provision of information leaflets/helpline numbers for support organisation such as GamCare

This list is merely indicative and not intended to exclude other conditions in appropriate cases.

- 15.4 When considering whether to impose conditions to restrict the betting machines in particular premises, we will take into account the size of the premises, the number of counter positions available for person-to-person transactions and the ability of staff to monitor the use of the machines by children and young people, or by vulnerable persons.

16 TRACKS

- 16.1 The Act contains rules, which apply to applicants for a premises licence in relation to a track. The applicant need not hold an operating licence because the betting that is provided upon the track will be provided by other operators, who come on-course. Since those people will require the necessary operating licences, the Act allows the track operator to obtain a premises licence without also having to hold an operating licence. This track premises licence then authorises anyone upon the premises with an operating licence to offer betting facilities.
- 16.2 Tracks are premises which include horse racecourses, dog tracks or other tracks where sporting events may take place. The Act does not define what may constitute a sporting event or race and the Board note the Commission's comments that the Board may determine what constitutes such on a case by case basis.
- 16.3 A track premises licence permits the premises to be used for the provision of facilities for betting. If the licence holder wishes to provide a casino, bingo or other type of gambling on the track, a separate premises licence will be required. Tracks may, therefore, be subject to more than one premises licence.
- 16.4 If the Operator wishes to use the premises temporarily for gambling and there is no premises licence in effect, the Board may issue a temporary use notice.
- 16.5 Where there is betting on a track on eight days or less in a calendar year, an occasional use notice may be issued by the Board to permit betting on the premises.
- 16.6 There may be some specific considerations with regard to the protection of children and vulnerable persons from being harmed or exploited by gambling, the need to ensure entrances to each type of premises are distinct and that children are excluded from gambling or betting areas where they are not permitted to enter. As children and young persons are allowed to be present on a track whilst betting is taking place, the Board will consider carefully, before issuing additional premises licences for a track, any potential impact an accumulation of premises licences may have on the third licensing objective.
- 16.7 Children and young persons will be permitted to enter track areas where facilities for betting are provided on days when dog racing takes place, although they are still prevented from entering areas where gaming machines (other than category D machines) are provided.
- 16.8 An applicant for a track premises licence requires to submit detailed plans of the premises to the Board. Whilst the Board agree with the Commission in its Guidance that it is sometimes difficult to define the precise location of betting areas on tracks, the Board shall require the following from an applicant:

A detailed plan defining the site, any area to be used for temporary "on-course" betting facilities and, in the case of dog tracks and horse racecourses, any mobile pool betting facilities as well as any other proposed gambling facilities.

Premises licence applicants will have to demonstrate suitable measures to ensure that children do not have access to adult only gaming facilities.
--

Applicants will require to demonstrate that they have measures in place to safeguard the achievement of all three licensing objectives.

- 16.9 In terms of the Gambling Act 2005 (Mandatory and Default Conditions) (Scotland) Regulations 2007, mandatory and default conditions, unless excluded by the Board, shall apply. The Board may also attach conditions to a track premises licence in terms of Section 169 of the Act. An example of said conditions may be as follows:

Proof of age schemes,
CCTV,
door supervisors,
physical security measures on the premises,
supervision of entrances/machine areas,
physical separation of gambling areas,
supervision of gambling areas,
location of entry notices/signage,
specific opening hours
appropriate siting of gaming machines,
self barring schemes,
the display of clear notices and signage both internally and externally regarding age restricted areas,
the display of a notice specifying opening hours,
the display of gambling rules in prominent positions in or near betting areas,
provision of information leaflets/helpline numbers for organisations such as GamCare.

This list is merely indicative and is not intended to exclude other conditions in appropriate cases.

- 16.10 We will sympathetically consider applications for re-sites within the same locality as existing premises and to applications lodged seeking extensions to premises that are already licensed. We will do so on the basis that such applications must enhance the quality of facilities provided within such premises for the benefit of the betting public.

17 TRAVELLING FAIRS

- 17.1 The licensing authority will consider whether the applicant falls within the statutory definition of a travelling fair.
- 17.2 Where category D machines and/or equal chance prize gaming without a permit are to be made available for use at travelling fairs, it will fall to the licensing authority to decide whether the statutory requirement, that the facilities for gambling amount to no more than an ancillary amusement at the fair, is met.
- 17.3 The 27-day statutory maximum for the land being used for a fair is per calendar year and applies to the piece of land on which the fairs are held, regardless of whether it is the same or different travelling fairs occupying the land. The Board will work with the departments of the Council and neighbouring authorities to ensure that land which crosses our boundaries is monitored so that statutory time limits are not exceeded.

18 PROVISIONAL STATEMENTS

- 18.1 In terms of Section 204 of the Act, a person may make an application for a provisional statement in respect of premises that:

He/she expects to be constructed,

He/she expects to be altered, or

He/she expects to acquire a right to occupy.
--

- 18.2 The Board note the Commission's Guidance which states that "Developers may wish to apply for provisional statements before they enter into a contract to buy or lease property or land to judge whether a development is worth taking forward in light of the need to obtain a premises licence."
- 18.3 Whilst applicants for a premises licence must fulfil certain criteria, these restrictions do not apply to applicants for provisional statements. An applicant for a provisional statement does not require to hold an operating licence nor do they need to have acquired a right to occupy the premises to which the applications relates.
- 18.4 In considering applications for a provisional statement, the Board shall not speculate on, nor take into account, the likelihood of an operating licence being granted by the Gambling Commission.
- 18.5 If a provisional statement is granted by the Board, the Board are aware that they are constrained in the matters they may consider when an application for a premises licence is subsequently made in relation to the same premises. In terms of any representations made in relation to the application for the premises licence, the Board shall disregard said representations unless they are of the view that those representations:
- Address matters that could not have been addressed in representations in relation to the application for the provisional statement, or
 - Reflect a change in the applicant's circumstances
- 18.6 In considering an application for a provisional statement, the Board shall not have regard to whether or not a proposal by the applicant is likely to be permitted in accordance with planning or building law.
- 18.7 The Board may refuse the premises licence application (or grant it on terms or conditions not included in the provisional statement), only by reference to matters:

Which could not have been raised at the provisional licence stage, or

Which, in the authority's opinion, reflects a change in the operator's circumstances.

Where the premises has not been constructed in accordance with the plan and information submitted with the provisional statement application.

19 REVIEWS

- 19.1 A premises licence may be reviewed by the licensing authority of its own accord for any appropriate reason or following the receipt of an application for a review by an interested party or responsible authority. It is for the licensing authority to decide whether the review should be carried out.
- 19.2 Section 200 of the Act provides that licensing authorities may initiate a review in relation to a particular class of premises licence or in relation to particular premises. Officers may be involved in the initial investigations of complaints leading to a review, or may try informal mediation or dispute resolution technique prior to a full-scale review being conducted by the authority.
- 19.3 An application for a review may be rejected if the licensing authority thinks that the grounds on which the review is sought:

Are not relevant to the principles that must be applied by the licensing authority in accordance with Section 153

Are frivolous or vexatious

"will certainly not" cause the authority to revoke or suspend a licence or to remove, amend or attach conditions to the premises licence
--

Are substantially the same as the grounds cited in a previous application for review relating to the same premises, or as representations made at the time the application for a premises licence was considered. In both these circumstances we will take into account the period of time that has passed since the applications or representations were made.

- 19.4 The Board may also investigate complaints against licensed premises in relation to matters relating to the licensing objectives.
- 19.5 Any complaints received in relation to particular premises or a class of premises shall inform the general risk-rating of those premises. Complaints received by the Board in relation to particular premises or to a class of premises may also initiate the Board's right of review under Section 200 of the Act, as outlined above.

PART C:

20 UNLICENSED FAMILY ENTERTAINMENT CENTRE GAMING MACHINE PERMITS

- 20.1 Where a premises does not hold a premises licence but wishes to provide gaming machines, it may apply to the licensing authority for a gaming machine permit. The applicant must show that the premises will be wholly or mainly used for making gaming machines available for use.
- 20.2 Unlicensed family entertainment centres are able to offer only category D machines in reliance on a gaming machine permit. Any number of category D machines can be made available with such a permit, subject to other considerations such as fire regulations and health and safety. Permits cannot be issued in respect of vehicles or vessels.
- 20.3 We note that the Board can grant or refuse a licence but cannot attach conditions to this type of permit. However the Act imposes mandatory conditions on unlicensed family entertainment centres gaming machine permits
- 20.4 The Gambling Act 2005 contains provision for local authorities to prepare a "Statement of Principles" that they propose to consider in determining the suitability of an applicant for a permit. Schedule 10, Para 7 of the Act states "In preparing this statement, and/or considering applications, it the licensing authority need not (but may) have regard to the licensing objectives and shall have regard to any relevant guidance issued by the Commission under Section 25.
- 20.5 In line with the above provision the licensing authority has prepared a 'Statement of Principles' in relation to unlicensed family entertainment centre gaming machines as follows:

Statement of Principles for Unlicensed Family Entertainment Centres

Suitability of Applicant

The Board will expect, as per the Gambling Commission Guidance, applicants to demonstrate:

A full understanding of the maximum stakes and prizes of the gambling that is permissible in unlicensed family entertainment centres;
That the applicant has no relevant conviction (those that are set out in Schedule 7 of the Act);
That staff are trained to have a full understanding of the maximum stakes and prizes.

Suitability of Premises

In relation to suitability of premises the Board will have particular regard, amongst all circumstances, to:

The location of the premises;
Evidence that a premises will only operate as an unlicensed family entertainment centre;
Confirmation of intended opening hours;
Display of posters and information leaflets for organisations set up to assist people wishing to seek help and advice regarding gambling related issues;
Any other factors that are within the control of the permit holder or designated management.

Policies and Procedures

The Board will expect the applicant to show that there are policies and procedures in place to protect children from harm. Applicants should undertake a full risk assessment specific to the type of premises, location, clientele and possible harm. For the avoidance

of doubt, in this context harm is not limited to harm from gambling but should include wider child protection considerations. The efficiency of such policies and procedures will each be considered on their merits, however, they may include:

Appropriate measures and training for staff e.g. as regards suspected truant children on the premises;
Measures and training covering how staff would deal with unsupervised very young children being on the premises;
Measures and training covering how staff would deal with children causing perceived problems on or around the premises;
Detailed arrangements for the supervision of premises whether by staff or the use of CCTV. Any CCTV system installed should be to the satisfaction of the Boards and Police Scotland and notice must be displayed at the entrances advising that CCTV is in operation;
Due to the nature of these premises, which are attractive to children, applicants who employ staff to supervise the premises should determine if their staff need to be background checked.

- 20.6 The Board recognise that they cannot attach conditions to this type of permit but can refuse applications if they are not satisfied that the issues raised in the “Statement of Principles” have been addressed through the application. Applicants only need to address the “Statement of Principles” when making their initial applications and not at renewal time.
- 20.7 The Board will give significant weight to all issues relating to the protection of children and young persons in pursuance of the third licensing objective.
- 20.8 The Board may not refuse an application unless it has notified the applicant of the intention to refuse and the reasons for it, and given them an opportunity to make representations orally or in writing or both.

21 PRIZE GAMING PERMITS

- 21.1 Section 288 of the Act defines gaming as prize gaming if the nature and size of the prize is not determined by the number of people playing or the amount paid for or raised by the gaming.
- 21.2 A prize gaming permit is a permit issued by the Board authorising a person to provide facilities for gaming with prizes on specified premises.
- 21.3 The Board will specify the form and manner in which an application must be made, and will specify the information and supporting documents required. These may include:

Plans of the proposed building,
Relevant insurance certificates,
Evidence demonstrating the suitability of the applicant,
Confirmation of intended opening hours,
Confirmation of the types of gaming to be offered,
Evidence demonstrating a full understanding both by the applicant and employees of the limits to stakes and prizes that are set out in Regulations,
Confirmation of appropriate levels of management supervision at all times during opening hours,
Confirmation that appropriate levels of security shall be in place at all times during opening hours,
Confirmation that appropriate CCTV will be in place at the premises,
Evidence that members of staff are appropriately trained,
Any other documents or information that the Boards may direct.

21.4 The Board will comply with any guidance produced by the Gambling Commission, and when considering a permit application may request further information from an applicant regarding any matters of concern.

21.5 The Gambling Act 2005 contains provision for local authorities to prepare a "Statement of Principles" that they propose to consider in determining the suitability of an applicant for a permit, having regard to the licensing objectives and guidance issued by the Gambling Commission. The Board have prepared a Statement of Principles in relation to prize gaming permits as follows:

Statement of Principles for Prize Gaming Permits

The Board will expect the applicant to show their suitability to hold a permit and that there are policies and procedures in place to protect children from harm. Harm in this context is not limited to harm from gambling but includes wider child protection considerations. The efficiency of such policies and procedures will each be considered on their merits, however, matters to address will include:

The location of the premises;
Confirmation of intended opening hours;
Confirmation of the types of gaming to be offered;
The applicant will be required to demonstrate they fully understand the limits to stakes and prizes that are set out in Regulations;
The applicant will be required to demonstrate the gaming offered is within the law;
Ensuring a premises maintains acceptable levels of management supervision at all times during opening hours;
Ensuring a premises maintains acceptable levels of security at all times during opening hours;
CCTV provisions at the premises;
Surveillance of the premises;
Evidence that members of staff are appropriately trained including training for staff as regards suspected truant children on the premises and how staff would deal with children causing perceived problems on or around the premises;
Any other factors that are within the control of the permit holder or designated management.

21.6 In line with the Act, while the council cannot attach conditions to this type of permit, the council can refuse applications if they are not satisfied that the issues raised in the "Statement of Principles" have been addressed through the application. Applicants only need to address the "Statement of Principles" when making their initial applications and not at renewal time.

21.7 There are conditions in the Gambling Act 2005 by which the permit holder must comply. The conditions in the Act are:

the limits on participation fees, as set out in regulations, must be complied with;
all chances to participate in the gaming must be allocated on the premises on which the gaming is taking place and on one day;
the game must be played and completed on the day the chances are allocated;
and the result of the game must be made public in the premises on the day that it is played;
the prize for which the game is played must not exceed the amount set out in regulations (if a money prize), or the prescribed value (if non-monetary prize); and
Participation in the gaming must not entitle the player to take part in any other gambling.

21.8 The Board may grant a permit only if the Chief Constable of Police Scotland has been consulted about the application.

- 21.9 The Board may not refuse an application unless it has notified the applicant of the intention to refuse and the reasons for it, and given the applicant an opportunity to make representations orally, in writing, or both.

22 TEMPORARY USE NOTICES

- 22.1 Temporary use notices allow the use of premises for gambling where there is no premises licence but where a gambling operator wishes to use the premises temporarily for providing facilities for gambling. Premises that may be suitable for a temporary use notice could include hotels, conference centres and sporting venues or a vessel, whether moored or moving. They are often used to run poker tournaments.
- 22.2 A temporary use notice may only be granted where a relevant operating licence has been granted.
- 22.3 A set of premises may not be the subject of a temporary use Notice for more than 21 days in a period of 12 months but may be the subject of several notices provided that the total does not exceed 21 days. In determining what may constitute a set of premises for the purpose of a Temporary Use Notice, the Board note the Commission's Guidance that this will be a question of fact in the particular circumstances of each notice that is given. In considering whether a place falls within the definition of a set of premises, the Board will look at, amongst other things, the ownership/occupation and the control of the premises.
- 22.4 An application for a Temporary Use Notice must be submitted to the relevant Board not less than 3 months and one day before the day on which the gambling event will begin. In addition a copy of the notice must also be served on:

The Gambling Commission
The Chief Constable of Police Scotland
HM Revenue and Customs
If applicable, any other licensing authority in whose area the premises are situated.

See **Appendix 2** for relevant addresses.

- 22.5 The person who is giving the temporary use notice must ensure that the notice and the copies are with the recipients within seven days of the date of the notice.
- 22.6 In our consideration of temporary use notice applications we will apply any regulations made under the provisions of the Act. Each application will be considered on its own merits.

23 OCCASSIONAL USE NOTICES

- 23.1 Where there is betting on a track on 8 days or less in a calendar year betting may be permitted by an occasional use notice, without the need for a full premises licence. The calendar year will commence on 1 January.
- 23.2 In considering an application for an occasional use notice the Board will consider the definition of a "track" and whether the applicant is permitted to avail him/herself of the notice.
- 23.3 A notice must be given in writing to the relevant Board and be copied to the Chief Constable of Police Scotland. The notice must be given only by a person who is responsible for the administration of events on the track, or by an occupier of the track.
- 23.4 The notice must specify the day on which it has effect, and may be given in relation to consecutive days providing the overall statutory limit of 8 days is not exceeded in a calendar year.

- 23.5 We will maintain a register of all applications to ensure that the statutory limit of 8 days is not exceeded.

24 CLUB GAMING PERMIT

- 24.1 A Club Gaming Permit authorises Members' Clubs (but not Commercial Clubs as defined in the Act) to provide, subject to certain restrictions, no more than 3 gaming machines of categories B,C or D, equal chance gaming and other games of chance as prescribed in regulations. See **Appendix 3** for more information on gaming machines.
- 24.2 The Club Gaming Permit also allows a Club to provide facilities for gambling provided the gambling meets a number of conditions.
- 24.3 The Board may grant or refuse a permit. The Board may also refuse an application for a permit only on one or more of the following statutory grounds:-

That the applicant is not, in the case of an application for a club gaming permit, a members' club or a miners' welfare institute, or
That the applicant is not, in the case of an application for a club machine permit, a members' club, a commercial club or a miners' welfare institute,
That the applicant's premises are used wholly or mainly by persons under the age of eighteen,
That an offence or a breach of a condition of a permit has been committed in the course of gaming activities carried on by the applicant,
That a permit held by the applicant has been cancelled in the last ten years ending with the date of the application, or
An objection to the application has been made by the Gambling Commission and/or the Chief Constable.

- 24.4 Whilst the Board cannot attach any conditions to a Club Gaming Permit, the Code of Practice on Gaming Machine Permits (available from the Gambling Commission's website at www.gamblingcommission.gov.uk) sets out conditions that attach to both gaming permits and club machine permits. This document also contains best practice guidelines that the Commission considers should be implemented by permit holders. The Board shall expect all permit holders to adhere to both the conditions specified in the Code of Practice and to follow the best practice guidelines in that document.
- 24.5 In terms of Section 273 of the Act, a club gaming permit shall be subject to the condition that no child or young person may use a category B or C gaming machine on the club's or institute's premises and the holder shall comply with any relevant provision of a Code of Practice under Section 24 of the Act about the location and operation of a gaming machine.

25 CLUB MACHINE PERMIT

- 25.1 If a Members' Club does not wish to have the full range of facilities permitted by a club gaming permit or if they are a commercial club not permitted to provide non- machine gaming, they may apply to the relevant Board for a club machine permit.
- 25.2 A club machine permit allows the holder to have up to 3 gaming machines of categories B3A, B4, C and D). See **Appendix 3** for further information on gaming machines.
- 25.3 The Board may grant or refuse a permit but may not attach any conditions.
- 25.4 In terms of Section 273 of the Act, a club machine permit shall be subject to the conditions that no child or young person may use a category B or C gaming machine on the club or institute's premises and the holder shall comply with any relevant provision of a Code of Practice under Section 24 of the Act about the location and operation of a gaming machine.

25.5 The Board expect all permit holders to adhere to both the conditions specified in the Code of Practice on Gaming Machine Permits (available from the Gambling Commission at www.gamblingcommission.gov.uk) and to follow the best practice guidelines in that document.

25.6 The Board may only refuse an application on the same grounds as a club gaming permit. Please refer to paragraph 24.3 above.

26 ALCOHOL LICENSED PREMISES – GAMING MACHINE PERMIT

26.1 In terms of Section 282 of the Act, on written notification to the relevant Board, premises licensed to sell alcohol for consumption on the premises have an automatic entitlement to 2 gaming machines of category C or D. See **Appendix 3** for further information on gaming machines.

26.2 The Board have no discretion to consider the notification or refuse it. However, upon the giving of at least 21 days' notice to the licence, the Board may remove the automatic entitlement if they think that:

Provision of the machines is not reasonably consistent with the pursuit of the licensing objectives,
Gaming has taken place on the premises that breaches a condition of Section 282 of the Act. For example, the gaming machines have been made available in a way that does not comply with the requirements on the location and operation of gaming machines,
The premises are mainly used for gaming,
An offence under the Gambling Act 2005 has been committed on the premises.

26.3 An Alcohol Licensed Premises Gaming Machine Permit is required if more than 2 gaming machines are sought. The issue of such a permit will replace and not be in addition to the automatic entitlement to 2 gaming machines. The Board may issue licensed premises gaming machine permits for any number of category C or D machines.

26.4 The Board expect all permit holders to adhere to both the conditions specified in the Code of Practice on Gaming Machine Permits (available from the Gambling Commission's website at www.gamblingcommission.gov.uk) and to follow the best practice guidelines in that document.

26.5 The Board will specify the form and manner in which an application must be made, and will specify the information and supporting documents required. These may include:

- A plan showing the location and category of gaming machines being sought, and
- Evidence of measures in place to prevent persons under the age of eighteen years from using any category of gaming machine.

26.6 The Board may decide to grant an application with a smaller number of machines and/or a different category of machine but cannot attach any other conditions.

27 REGISTRATION OF SMALL SOCIETY LOTTERIES

27.1 Small society lotteries are non-commercial societies which are established and conducted:

For charitable purposes,
For the purpose of enabling or participation in, or supporting, sport, athletics or a cultural activity, or
For any other non-commercial purpose other than private gain

27.2 Small society lotteries whose principle office is located within Aberdeenshire, require to register with the relevant Licensing Board.

27.3 All applications for registration must be made in the form specified by Scottish Ministers, and accompanied by all necessary documents specified by Scottish Ministers, or required by the Board.

27.4 When considering an application for registration the Board may request further information from an application such as:

Evidence that the application is on behalf of a bona fide con-commercial society (e.g. a copy of the terms and conditions of the society's constitution),
Evidence that all persons to be connected with the promotion of the lottery have no relevant convictions or cautions recorded against them,
Details of the purpose of the society and the purpose of the fundraising,
Confirmation of the appointment of two members of the society who have the authority to sign and complete the required financial returns,
Evidence that an external lottery manager holds an operator's licence issued by the Gambling Commission.

27.5 The Board maintain a register of small societies' lottery registrations and this register shall be made available for public inspection at a reasonable time, upon request.

27.6 If a relevant Board is intending to refuse an application for such a registration, the applicant will be notified in writing of the reasons why refusal is being considered and the evidence on which it has based that preliminary conclusion. The applicant will then be given the opportunity to provide further evidence in support of the application or to make representations regarding these matters before the relevant Board makes a final determination on the application.

1. Introduction

The Aberdeenshire Licensing Board Local Area Profile was compiled to set out the demographic of the local area and to provide a tool which may be useful for gambling operators in the course of a licensing application, to assist in identifying the risks this may pose to the licensing objectives. Through reference to this area profile, operators should be able to identify any risks which arise out of their premises' surroundings and then take the appropriate steps to try and reduce the impact this has. The Gambling Commission's Licence Conditions and Codes of Practice (LCCP) formalised operators' requirement to consider local risks and carry out a risk assessment when applying for a new premises licence in 2016, and it is hoped this document is a useful reference point for assessing local circumstances.

The Aberdeenshire Licensing Board is a Licensing Authority under the Gambling Act 2005 and are responsible for determining policy as well as the administration, consideration and determination of gambling licensing applications and gaming permits. The Aberdeenshire Licensing Board's Gambling Policy is reviewed every three years and known as the 'Gambling Act 2005- s.349 Statement of Principles'. The current policy has just been subject to review and the Board is set to adopt the 2022-2025. This can be viewed at **[LINK TO POLICY ON ABERDEESHIRE COUNCIL WEBSITE WILL BE INSERTED HERE ONCE IT IS ON WEBSITE]**.

The Board's Statement of Policy is drafted with close regard to the licensing objectives of the Gambling Act, the Gambling Commission's Guidance to Licensing Authorities, as well as the views of the consultees to the Statement of policy, and it is within this document that operators can find guidance on Aberdeenshire licensing policy and the licensing objectives of the 2005, Gambling Act.

Within Aberdeenshire there are currently a total 258 gambling licences. Of this 229 are lottery licences and 29 are for gambling premises.

2. The Local Area

Below is a map which shows the area in which Aberdeenshire and subsequently the Aberdeenshire Licensing Board covers:

A useful tool for gambling operators when looking to obtain information on the local area is the interactive map available on the Aberdeenshire Council Website. Access to this resource can be found if you follow the link below:

<https://gis.aberdeenshire.gov.uk/maps/map.aspx?geolocate=true&resolution=2&initialDialog=localKnowledgeDialog>

The online interactive map allows operators to zone in on the exact location of their premises, whilst the Local Knowledge sidebar provides in depth information on the closest local facilities. This includes primary and secondary schools, local leisure facilities such as community centres, libraries and swimming pools and local health centres and hospitals. This can be useful for operators to be able to indefinitely and understand the type of services which surround their premises, who is, or is likely to be using them (children, vulnerable adults etc), and any risks which may arise out of their premises being situated in such a location. It is hoped a greater understanding

of the character of the local area will help reduce or help mitigate any risks it may pose to the licensing objectives.

3. Aberdeenshire Profile- Economy

Aberdeenshire is a predominantly rural area located in the North East of Scotland which covers 6,339 km² and includes area within the Cairngorm Mountains, agricultural lowlands and a variety of coastal landscapes. Due to this, Aberdeenshire is traditionally economically dependent on the primary sectors of Agriculture, Forestry and Fishing. Over the last 50 years the Oil and Gas industry has played a key role in repositioning the economic focus of Aberdeenshire.

As of 2019, the top 5 employment sectors within Aberdeenshire were Manufacturing (12.1%), Professional, Scientific & Technical (7.1%), Health (10.1%), Retail (9.1%) and Education (8.1%). The percentage of unemployment claimants as a proportion of residents aged between 16-64 in Aberdeenshire had risen over the last five years from 1.5% in 2017 to 4% in 2021. This figure was on a steady incline between 2017 and 2020, rising only 0.3%, with the most significant increase in unemployment claimants occurring within the last year, increasing from 1.8% to 4%. This is likely a result of the COVID pandemic and the impact this has had on employment. Despite this, Aberdeenshire is still well below the overall proportion of unemployment rates in Scotland which is currently at 7.4%. Furthermore, the median household income in Aberdeenshire was £37,853 as of 2020, which again is significantly higher than the figure for Scotland overall which is a median household income of £30,666.
