Any net surplus on the HRA is used to fund the HRA Capital Programme, whilst maintaining a minimum working balance of £2m in reserves.

The Table below provides a summary of the HRA budget, which was approved on 17 March 2021.

	Committee Budget £'000
Gross Revenue Budget	66,529

Corporate Savings	-
Other Budget Movements	-
Net Revenue Budget	66,529
Capital	93,416
Reserves	2,000

3.2 Revenue – Expenditure and Income

i. **Financial Facts**

The Revised Revenue Budget for 2021/22 for HRA amounts to £66,529,000, The budget allocations are broken down by Type of Spend and Budget Page in **Appendices 1a and 1b** respectively.

The service is currently forecasting to remain within budget, given that at this stage in the financial year the HRA year-to-date actuals are within the year-to-date budget position.

ii. **Service Commentary**

The Service continues to look at the structure of its teams, considering the impact of Covid 19 and future working practices and requirements. By February 2022, all homes in Scotland will be required to comply with new legislation (LD2) to have interlinked fire alarms. Various project delivery routes are being used to install the detectors via a dedicated contract, Hard FM, HIP and Housing Repairs to ensure compliance.

iii. **Risks/Mitigation**

Any changes in service delivery and practice will require engagement with the Council and with our tenants. The outcome of this engagement may impact on proposals.

iv. **Impact on Future Years**

There have been no budget pressures or efficiencies identified at this time which would potentially affect the Council's budget in future years.

Impact on future years is considered by modelling the HRA Business Plan with multiple scenarios. This allows a degree of knowledge and certainty as to how the HRA Budget will look in future years.

3.3 **Savings**

i. **Financial Facts**

The approved HRA Revenue Budget for 2021/22 has been prepared after consultation with tenants and therefore reflects the priorities resulting from this vital engagement.

Any savings within the HRA Revenue Budget provides a reinvestment opportunity within the HRA.

3.4 **Capital**

i. **Financial Facts**

The approved Capital Budget for 2021/22 in respect of HRA amounted to £93.416 million. **Appendix 4** details the Capital Performance and highlights an underspend of £28.459 million.

ii. **Service Commentary**

Housing continually monitor the Capital Plan during the financial year.

The New Build Housing Programme has been developed and re-profiled and as a result, forecast expenditure in 2021/22 will be £18.5m lower than expected predominantly due to the challenges facing the development industry as Covid 19 restrictions ease, including supply chain difficulties across a variety of materials and volatility in both labour and materials costs, causing contractors concerns about their ability to fulfil contractual obligations. Some projects have encountered delays in obtaining statutory permissions and site acquisition.

The Housing Improvement Plan (HIP) contractors reaffirmed with Property Service that they will achieve planned expenditure. However, due to the unpredictability of the ongoing impact of COVID19 and the current global difficulties with supply of materials and labour shortages Housing Service believes this target is ambitious and expect that the HIP will be £7.249m within forecast.

The Sheltered Housing Sprinkler Programme is also showing a forecast underspend of £0.825m. This is due to delays in access to properties due to Covid 19. The affected works programmed for this financial year will be reprogrammed to be undertaken in 2022/23.

For the Stock Improvements (Non HIP), following a review of the programme of works, £0.728m has been identified as not required for the remainder of this financial year. The impact on future years budget will be assessed going forward.

iii. **Risks/Mitigation**

Any risks arising will be identified and actions considered to mitigate the risk.

iv. Impact on Future Years

Any impact on future years will be reported as necessary as the plan progresses during the year. The £18.5 million from New Build Housing will be re-profiled and utilised in future years. Any slippage will likely have a knock-on effect upon the ability to drawdown Scottish Government grant which cannot be carried forward into future years. This will have implications for the affordable housing sector as a whole across Scotland.

3.5 Reserves

i. Financial Facts

Full Council agreed an HRA reserve of £2.0million when it approved the budget for 2021/22 as detailed in Appendix 5 to this report. It should be recognised that were an unforeseen event to occur that could impact on the HRA revenue budget, which may require a call on this reserve, consideration would be made by Council as to how to reinstate the balance to the agreed level. The balance in this reserve at 30th November 2021 was £2.0 million.

ii. Service Commentary

Housing Service has no immediate plans for expenditure from the reserve.

iii. Risks/Mitigation

No risks have been identified at the present time.
