Hi Frances

We have reviewed the parking survey and are satisfied that it demonstrates there is sufficient on street parking available.

Regards
Esther McDonald

Subject: FW: LRB 558 - Notice of Review - APP/2022/0878 - Additional Information Requested.

Good afternoon Esther and Graeme,

Please see email trail and attached parking survey which the Local Review Body requested for this review.

The Local Review Body requested this following a response by the Planning Adviser to the Local Review Body:

That the surrounding houses were built in the 1930s and different road safety standards would have been applied at that time. The Roads Service would apply the current road safety standards for off-street parking and any deviation from that would require further information by way of a parking survey from the applicant.

Are you able to consider this survey and make comment on this and confirm whether your outstanding objection would still remain?

Kind regards

Frances
