

INFRASTRUCTURE SERVICES COMMITTEE – 6 OCTOBER 2016

HISTORIC ASSET MANAGEMENT PROJECT - COMPLETION OF DATABASE AND COMMENCEMENT OF MAINTENANCE PROGRAMME

1 Recommendation

The Committee is recommended to:

- 1.1 Note the completion of a prioritised database of Council owned or managed non-operational heritage assets;**
- 1.2 Approve the prioritised list of works, to be undertaken this financial year, and provide any additional comments to Officers; and**
- 1.3 Note that a project update will be submitted annually to this Committee.**

2 Background/Discussion

- 2.1 Reflecting some of the key principles set out in Historic Environment Scotland's Policy Statement (June 2016), Aberdeenshire Council is committed to protecting and managing its rich and diverse historic environment '...so that current and future generations can understand, appreciate and benefit from it'.
- 2.2 A core part of the Council's approach is reflected in the 'Historic Assets Management Project' (HAMP), established in 2013 to undertake an asset review of all non-operational heritage assets in the ownership or under the management of Aberdeenshire Council. The review also considered historically significant assets, where ownership was uncertain but where the assets may have been the responsibility of previous District or Burgh Councils.
- 2.3 A benchmarking exercise against other Scottish local authorities in 2014 revealed that Aberdeenshire Council is leading the way in Scotland by creating a database of non-operational historic assets. Additionally by early intervention of maintenance to the Council's assets the Council is seen as leading by example to owners of other historic properties.
- 2.4 This approach will provide a robust evidence base to underpin use of the historic environment budget available, and also identify health and safety issues, so as to prioritise more urgent works. In order to safeguard local

context, the review took account of both designated and non-designated assets.

- 2.5 The information gathered has enabled production of a prioritised asset list reflecting the maintenance requirements of each asset, to assist in the scheduling of future works.
- 2.6 Assets surveyed include Scheduled Monuments, Listed Buildings and non-designated heritage assets. The overall number may continue to rise as additional sites are identified; alternatively, assets may be discounted if they no longer remain in the ownership or under the management of Aberdeenshire Council. **Table 1** below summarises the data by Council area and asset category as of September 2016.

Table 1: BREAKDOWN OF ASSETS BY AREA AND TYPE

	BB	B	F	G	K&M	M	Total
Graveyards	18	16	22	26	21	46	149
Buildings	37	18	19	13	13	17	117
Monuments	44	30	24	23	34	58	213
Bridges	0	2	1	0	1	3	7
Total	99	66	66	62	69	124	486

- 2.7 Between June and August 2016 a Report was presented to each Area Committee outlining the scope of the project and the list of assets identified. Following the Area Committees some sites were deleted as they were not considered the Council's responsibility, and others were added. The Area Committees also asked that damage caused by flood or fire was considered in the prioritisation of works. Should a major weather event occur for example, it may be necessary to update surveys and revise the prioritised list. This would be in line with the health and safety assessment of each asset.
- 2.8 **Appendix 1** provides a summary list of all surveyed assets, including historic bridges, which require specialist examination by the Bridges and Structures team. This specialist work is part funded by the HAMP budget to the amount of £25,000. Note that inclusion in the list does not automatically mean that assets are owned by the Council. Where ownership was in doubt, surveyors were instructed to proceed, subject to further legal searches taking place prior to any maintenance work being scheduled. In parallel with repair and restoration of historic assets a restoration programme of interpretive panels is being undertaken.

- 2.9 A wide range of projects were completed under the HAMP budget between October 2013 - August 2016 which are listed in **Table 2**.

Table 2: PROJECTS COMPLETED OR PART FUNDED BY HAMP PRIOR TO COMPLETION OF DATABASE

Location	Town	Description of works
St Mary's Graveyard	Banff	Entrance arch stabilised
Kindrochit Castle	Braemar	Restoration of medieval castle
Clocktower	Stonehaven	Restoration
Monkeigie Burial Monument	Kinellar	Repair and reinstatement
Bronchal Well	Aberchirder	Repair of door and lintel
Back Spoot Well	Aberchirder	Repair of door
Duff House Mausoleum	Banff	Repairs to door and tomb
Duff House Gates	Banff	Repairs to metal work
Duff House Ice House	Banff	Removal of debris
Elyza Fraser Mausoleum	Cluny	Funding towards <i>An Non Domino</i> transfer via Registers of Scotland
The Smiddy	Banff	Funding of professional fees
The Vinery	Banff	Pest eradication, building stabilised and feasibility study
Tarlair Pool	Macduff	Funding towards feasibility study
Portsoy Scout Hut	Portsoy	Funding towards renovation
Benholm Mill	Inverbervie	Funding towards feasibility study
Old Nethermill Bridge,	Pennan	Repairs to arch and abutments

- 2.10 Surveyed assets were assigned a numerical score in terms of need for maintenance across a variable number of potential criteria including those relating to wall and roof condition, rainwater goods, vandalism, ivy damage with health and safety prioritising all other variables. Assets requiring health and safety works will be addressed in the first instance; any further non critical works required on these assets may be postponed. Initial prioritisation showed seven sites requiring immediate attention. These are highlighted in **Table 3**.

Table 3: HISTORIC ASSETS MAINTENANCE PROJECTS ONGOING AND PROPOSED 2016-2017

	Proposed (Prioritised Projects numbered)	Location	Current situation
1	Macduff Town Cross	Macduff	Stabilisation of cross plinth ongoing
2	Tullich Kirkyard	Ballater	Ongoing assessment of kirk walls Consideration of moving symbol stones to Royal Station, Ballater

3	St Brandon's Graveyard	Inverboyndie	Surveys ongoing prior to engineering works.
4	St John's Graveyard	Gamrie	Surveys ongoing prior to engineering works.
5	Bervie Old Parish Church	Inverbervie	Works instructed to remove ivy.
6	Old Parish Church Tarland	Tarland	Bellcote dismantled.
7	Kincardine O'Neil Auld Kirk	Kincardine O'Neil	Mortar failure, awaiting contract award.
	Market Cross, Inverbervie	Inverbervie	Consolidation of structure
	Ramsay Burial Aisle	Newmachar	Repointing and consolidation
	Biggar Fountain	Banff	Cleaning, repointing and replacement of elements
	New Pitsligo War Memorial	New Pitsligo	Cleaning and repointing

- 2.11 Given the vulnerability of all heritage assets it is considered that the prioritised list will be subject to ongoing review, particularly given the added risks of unforeseen damage, such as from floods or fires. Furthermore, funding resources available under the HAMP budget together with the overall numbers of health and safety priorities, limit the capacity to address all the prioritised projects, and a strategy for ongoing monitoring and assessment is required.
- 2.12 Currently, if an asset has health and safety concerns the minimum works are done to ensure public safety. If elements of the structure are dismantled they are to be re-instated where feasible thus preserving the built heritage portfolio of Aberdeenshire. However given the potential number of structures in this category, this approach may need to be reviewed in the future.
- 2.13 Some projects will require large investments beyond the scale of the Historic Assets Management Project budget of £200,000 per annum, calling for match funding from external sources such as Heritage Lottery Fund or Historic Environment Scotland. Works to Kindrochit Castle, which were part funded by the Cairngorms National Park Authority, have created a popular visitor attraction in the village which has engaged the local children in caring for their past. Future work of the project will identify the opportunities for drawing down additional sources of funding, particularly sources of funding which can make the most of the tourism potential of many of the sites.
- 2.14 It is proposed that an annual report on HAMP works be brought to each of the Area Committees advising them of the number and condition of assets, with a list of ongoing and proposed projects. Next year is the Scottish Government's *Year of History, Heritage & Archaeology 2017* which may offer the Council an opportunity to highlight particular historic assets.

2.15 The Head of Finance and Monitoring Officer within Business Services have been consulted in the preparation of this Report and their comments have been incorporated.

3 Equalities, Staffing and Financial Implications

3.1 An Equality Impact Assessment is not required because the recommended actions will not have an impact on people with protected characteristics.

3.2 There are no direct financial implications arising from the progression of the Historic Asset Management Project as a budget line has already been created, allowing £200,000 annually for project delivery. Currently the project has 1.3 FTE post from October 2016.

Stephen Archer
Director of Infrastructure Services

Report Prepared By: Marsaili Aspinall
